Permit Renewal

Re: Application No. 05-0024 in reference to the location below:

Approximately 100 feet north of Clipper Way, approximately 450 feet west northwest of the intersection of Clipper Way and Evelyn Drive, Utility Pole No.73, Assessor's Plat 143, Lot 104, Bristol, RI

Dear Mr. & Mrs. Lake:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your Application for Renewal received on March 6, 2009, as well as a follow-up inspection to determine compliance with actions required to resolve non-conformance items identified in our letter to you dated April 6, 2009.

It is our understanding that you are requesting renewal of the permit issued for Application No. 05-0024. The original permit was issued on April 6, 2007 to you for alterations to freshwater wetlands at the above-referenced location.

This Program has completed a re-inspection of the site and has found that your project, at this time, is now in conformance with those conditions set forth in the original permit as well as the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules). It is our determination, therefore, that the permit may be renewed. This renewal is valid until April 6, 2010 and expires on that date unless an additional renewal is allowed and authorized in accordance with Rules.

A copy of the original permit letter of April 6, 2007 is enclosed for your convenience. It is your responsibility to maintain compliance with the conditions of the permit and to carry out this project in compliance with the Rules at all times. This renewal does not relieve you of any obligations to obtain any local, state, or federal approvals or permits as required by ordinance or law.

Please contact Andrew Charpentier of this office (telephone: 401-222-4700 ext. 7414) should you have any questions.

Sincerely,

Charles A. Horbert, Program Supervisor
Office of Water Resources
Freshwater Wetlands Program
