February 11, 2009

Peter A. Healey, P.E., Civil Engineer
Two Capitol Hill
Providence, RI

Re: Application No. 05-0036 in reference to the location below:

At RI Bridge No. 882 on Industrial Drive, approximately 400 feet west of the intersection of Industrial Drive and North Main Street, Providence, RI

Dear Mr. Healey:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your Application for Renewal received on February 3, 2009.

In understanding that you are requesting renewal of the permit issued for Application No. 05-0036. The original permit was issued on February 21, 2005 to you for alterations to freshwater wetlands at the above-referenced location.

This Program has completed review of the application and has found that your project has not yet commenced. In all other respects, at this time, it is in conformance with those conditions set forth in the original permit as well as the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules). It is our determination, therefore, that the permit may be renewed. This renewal is valid until February 21, 2011 and expires on that date. No further renewals are available for this project after that date.

It is your responsibility to maintain compliance with the conditions of the original permit (copy enclosed) and to carry out this project in compliance with the Rules at all times. This renewal does not relieve you of any obligations to obtain any local, state, or federal approvals or permits as required by ordinance or law. Any modifications to the project not illustrated on the approved site plans would require approval of, at least, an Application for Permit Modification prior to the expiration of the permit.

Please contact me directly (telephone: 401-222-6820, ext. 7402) should you have any questions.

Sincerely,

Charles A. Horbert, Permitting Supervisor
Office of Water Resources
Freshwater Wetlands Program
