Re: Application No. 07-0172 in reference to the location below:

Approximately 800 feet west of Rose Hill Road, approximately 4000 feet south of the intersection of Rose Hill Road and Moorsefield Road (Rte. 138), Utility Pole No. 7 & 7 1/2 Assessor's Plat 32, Lot 13, South Kingstown, RI.

Dear Mr. Knowles:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Request to verify the delineated edge of freshwater wetlands**. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received on August 7, 2007.

Based upon the Program's observations and review, it is our determination that freshwater wetlands are present on or are in close proximity to the subject property. These freshwater wetlands are regulated by this Program and include at least the following types:

- Swamp
- 50-foot Perimeter Wetland

~~The DEM has completed an inspection and review of the wetland edge delineated by you on-site.~~ It is our determination that the wetland edge delineated on-site is accurate. This wetland edge has been shown on the site plan submitted with your application and is referenced as wetland flags WF100 through WF109. These wetland edge flags delineate a portion of the edge of a swamp.

Please note that our inspection of the subject property has revealed the presence of other freshwater wetlands not specifically delineated by you. Therefore, you should not infer that any verification of wetland edges carried out by this Department to date represents a determination that this is the extent of all wetlands on your property. **The Department has verified only those edges delineated and shown by you on-site and on site plans submitted with your application and as qualified in this letter.** Should you wish to verify the edge of these additional wetlands, an additional application will be required.

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to Section 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules) a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands

Application No. 07-0172
Page 2

In accordance with Rule 9.02(F) of the Rules, this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

Please contact Claire Swift of this Office telephone: (401-222-6820, ext. 7418) should you have any questions regarding this letter.

Sincerely,

W. Joseph Casey, Senior Environmental Scientist
Office of Water Resources
Freshwater Wetland Program
