RE: Application No. 07-0186 in reference to the property located:

Approximately 650 feet north of Church Street, approximately 900 feet west of the intersection of Church Street and Putnam Pike, Assessor's Plat 3, Lot 1A, Greenville, RI.

Dear Mr. Kane :

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your request to verify the delineated edge of freshwater wetlands. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received on April 30, 2007.

The DEM has completed an inspection and review of the wetland edges delineated by you on-site. It is our determination that those wetland edges delineated on-site are generally accurate. Corrections and/or modifications to the delineated edge are required which include the following:

- Flags ASF 1, ASF 2, and ASF 11 through ASF 13 represent an Area Subject to Storm Flowage, while flags ASF 3 through ASF 10 represent an Area Subject To Flooding.

Additional wetlands on the subject property include Flags A1 through A8 representing a Forested Wetland.

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to Section 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules) a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands.

In accordance with Rule 9.02(F) of the Rules, this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

Application No. 07-0186
