Re: Application No. 08-0151 in reference to the location below:

At the terminus of Moitoza Lane, approximately 2,400 feet west of East Main Road, Assessor's Plat 63, Lots 12 and 15, Portsmouth, RI.

Dear Msrrs. Wicks and Ms. Carlisle:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Request to Determine the Presence of Freshwater Wetlands**. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received on May 15, 2008.

Based upon the Program's observations and review, it is our determination that freshwater wetlands are present on and in close proximity to the subject property. These freshwater wetlands are regulated by this Department and include at least the following types:

- Swamp
- Perimeter Wetland (that area of land within 50 feet of the edge of any bog, marsh, swamp, or pond)

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to Section 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules) a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands

In accordance with Rule 8.02(C) of the Rules, this determination of the presence of wetlands is valid for a limited period of four (4) years from the date of issue.

Please contact Jane Kelly of this Office telephone: (401-222-6820 ext. 7420) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Permitting Supervisor
Office of Water Resources
Freshwater Wetlands Program
