Re: Application No. 08-0374 in reference to the location below:

Approximately 70 feet north of Garfield Avenue, Utility Pole #5, and approximately 200 feet west of the intersection of Garfield Avenue and Dunbar Avenue, Assessor's Plat 26, Lots 44 & 45, Bristol, RI

Dear Mr. Fitting:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program, ("Program") has completed its review of your proposed triplex building, with associated utilities, driveways and landscaping as illustrated and detailed on site plans submitted with your application. The site plans referenced by this letter and on file with this Program were received on December 4, 2008.

Our inspection reveals that there are no freshwater wetlands regulated by the DEM on or immediately adjacent to the subject property that would be altered by this project. Therefore, no permit for this project is required from the DEM pursuant to the Freshwater Wetlands Act (Rhode Island General Law Section 2-1-18 et seq.) or Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act. **This Determination is specific to the proposed site alterations and subject property illustrated and detailed on the site plans on file with this Program.**

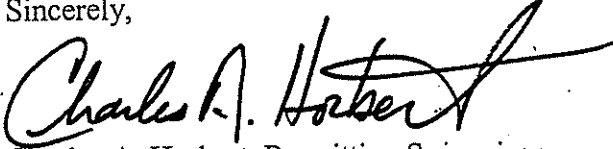

Please note that this Determination is valid for a limited period of four (4) years from the date of issue, and does not remove your obligation to obtain any local, state or federal approvals or permits required by ordinance or law.

Modification to your project, which would result in an alteration or allowing your project to result in an alteration to freshwater wetlands, requires a permit from this Program. Unauthorized alterations to freshwater wetlands are subject to enforcement action.

Enclosed please find one (1) copy of your site plans stamped REVIEWED by this Program.

Please contact Andrew Charpentier of this Office (telephone: 401-222-6820, ext.7414) should you have any questions.

Sincerely,

Charles A. Horbert, Permitting Supervisor  
Freshwater Wetlands Program  
Office of Water Resources  
CAH/AC/ac
