Dear Mr. Gallipeau:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has reviewed your **Application for Permit Modification** pursuant to Rule 11.03 of the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules). It is the Program's determination that a revised permit under this application may not be issued for the following reasons:

The proposed revised project increases the limits of wetlands disturbance previously permitted and increases the anticipated impacts from that project previously permitted.

Therefore, your revised project will require a new application. Upon receipt of your new application, the Program will commence processing in accordance with the Rules.

Please contact me or Claire Swift of my staff (telephone: 401-222-6820 x 7418) should you have any questions.

Sincerely,

Martin D. Wencek, Permitting Supervisor
Office of Water Resources
Freshwater Wetlands Program
