RE: Application No. 10-0054 in reference to the location below:

Approximately 80 feet northwest of Eagle Street,, approximately 100 feet north-northwest of the intersection of Birchwood Drive and Eagle Street, Assessor's Plat 19, Lot 236, Johnston, RI.

Dear Mr. Tulli:

Kindly be advised that the Department of Environmental Management's ("DEM") has completed its review of your Request to verify the delineated edge of freshwater wetlands. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received by the DEM on April 1, 2010.

Based upon the Department's observations and review, it is our determination that freshwater wetlands are present on the subject property. The freshwater wetlands regulated by this Department include at least the following types:

- Swamp
- 50 Foot Perimeter Wetland

It is our determination that those wetland edges delineated on-site are substantially accurate. Corrections and/or modifications to the delineated edge are required, however, which include the following:

- 1) Flags 3, 4 and 5 must be shifted twenty (20) feet to the southeast to correctly encompass the limits of the swamp.
- 2) The revised location of flag 3 must be connected with flag 2.
- 3) A 50 Foot Perimeter Wetland is present measuring 50 feet away from the edge of the revised wetland flags (1 through 5 inclusive).

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to Section 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules) a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands.

This Program assumes that the edges of freshwater wetlands, as flagged or marked on site, have been accurately surveyed and portrayed on site plans submitted in support of your application. This Program makes no guarantee or representation that such survey is accurate.

In accordance with Rule 8.03(H) of the Rules, this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

Please contact me at this Office telephone: (401-222-6820) should you have any questions regarding this letter.

Sincerely,

A handwritten signature in cursive script that reads "Martin D. Wencek". The signature is written in black ink and is positioned above the typed name.

Martin D. Wencek, Permitting Supervisor
