Catonsville, MD 21228

RE: Application No. 11-0147 in reference to the property and project located:

Approximately 140 feet west of Diamond Hill Road, by utility pole nos. 261 & 262; approximately 600 feet southeast of the intersection of West Valley Drive and Diamond Hill Road; Assessor's Plat 29, Lot 41, Cumberland, RI.

Dear Mr. Macari:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your proposed dwelling with driveway, an On-site Wastewater Treatment System, water service, drain line, site grading, and razing of an existing dwelling for the above referenced property ("subject property") as illustrated and detailed on site plans submitted with your application. The site plans referenced by this letter and on file with this Program were received on July 26, 2011.

Our inspection reveals that there are no freshwater wetlands regulated by the DEM on or immediately adjacent to the subject property that would be altered by this project. Therefore, no permit for this project is required from the DEM pursuant to the Freshwater Wetland Act (Rhode Island General Law Section 2-1-18 et seq.) or the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act. This Determination of Non-Jurisdiction is specific to the proposed site alterations and subject property illustrated and detailed on site plans on file with this Program.

Please note that this Determination of Non-Jurisdiction is specific to this proposed project, is valid for a limited period of four (4) years from the date of issue, and does not remove your obligation to obtain any local, state or federal approvals or permits required by ordinance or law.

Enclosed please find one (1) copy of your site plan stamped REVIEWED by this Program. Please contact Daniel Kowal (telephone: 401-222-4700, ext. 7416) should you have any questions.

Sincerely,

Martin D. Wencsek, Permitting Supervisor
Freshwater Wetlands Program
Office of Water Resources
