Pauline Finocchio
39 Carpathia Road
Cranston, RI 02920

RE: Application No. 12-0202 in reference to the property located:

Approximately 600 feet north of Hartford Avenue (Route 6), approximately 1,500 feet east of the intersection of Hartford Avenue and Belfield Drive, Assessor's Plat 54, Lot 34, Johnston, RI.

Dear Ms. Finocchio:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your Request to Verify the Delineated Edge of Freshwater Wetlands. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received by the DEM on November 26, 2012.

Based upon the Program's observations and review, it is our determination that freshwater wetlands are present on or are in close proximity to the subject property. These freshwater wetlands are regulated by this Department and include at least the following types:

- Swamp (A- and C- series flags)
- Perimeter Wetland (that area of land within 50 feet of the edge of any bog, marsh, swamp, or pond)
- Forested Wetland (B-series flags)

The DEM has completed an inspection and review of the wetland edges delineated by you on or in the vicinity of the approximate property boundaries illustrated on the site plans. These wetland edges are represented by flags A5 through A14; B2 through B13; and C1 through C12. It is our determination that the wetland edges are substantially accurate. Corrections and/or modifications to the delineated edges are required, however, which include the following:

- Move flags B-10 and B-11 approximately 20 feet southerly (downslope).

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to Section 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules) a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands

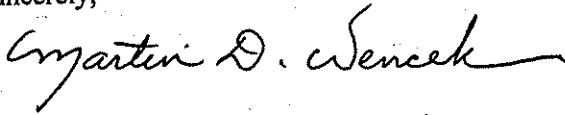

This Program assumes that the edges of freshwater wetlands, as flagged or marked on site, have been accurately surveyed and portrayed on site plans submitted in support of your application. This Program makes no guarantee or representation that such survey is accurate.

In addition, you should note that freshwater wetlands are present on this property which may be regulated under Section 404 of the Clean Water Act (Federal Water Pollution Control Act, as amended 33 U.S.C. 1344). Accordingly, a permit may be required from the U.S. Army Corps of Engineers for alteration of these wetland areas.

In accordance with Rule 8.03(H) of the Rules, this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

Please contact Jane Kelly of this Office telephone: (401-222-6820, ext. 7420) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Permitting Supervisor
Office of Water Resources
Freshwater Wetlands Program
