REVISED PERMIT

Re: Application No. 15-0215 in reference to the location below:

Approximately 260 feet south of Division Road, immediately southeast of the intersection of Division Road and Shippeetown Road, Assessors Plat 14, Lots 273 & 274, East Greenwich, RI.

Dear Mr. Dowlatshahi:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Application for Permit Modification** and has evaluated your proposed modifications to the permitted residential subdivision, including replacement of previously approved infiltration basins with infiltration systems and crushed stone driveways, as illustrated and detailed on revised site plans submitted with your application. The revised site plans were received on October 1, 2015.

Based upon the Program's evaluation of the revised project and pursuant to Rule 11.03 of the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act (Rules), it is the Program's determination that a revised permit for the modified project may be issued under the following terms and conditions:

1. This letter is the DEM's revised permit for this project under the R.I. Fresh Water Wetlands Act, Rhode Island General Laws (RIGL) Section 2-1-18 et seq.
2. This revised permit is specifically limited to the project, site alterations and limits of disturbance as detailed on the site plans submitted with your application and received by the DEM on October 1, 2015. A copy of the site plans stamped approved by the DEM is enclosed. Changes or revisions to the project that would alter freshwater wetlands are not authorized without a permit from the DEM.
3. Where the terms and conditions of the revised permit conflict with the approved site plans, these terms and conditions shall be deemed to supersede the site plans.
4. A copy of the stamped approved site plans and a copy of this revised permit must be kept at the site at all times during site preparation, construction, and final stabilization. Copies of this revised permit and the stamped approved plans must be made available for review by any DEM representative upon request.
5. Within ten (10) days of the receipt of this revised permit, you must record this permit in the land evidence records of the Town of East Greenwich and supply this Program with written documentation obtained from the Town showing this revised permit was recorded.
6. This revised permit expires on July 1, 2020.

Except as authorized in this revised permit, pursuant to revised and approved site plans (enclosed), all terms and conditions previously specified in the Program's permit dated August 2, 2013 (File No. 13-0072) remain in effect including the RIPDES General Permit No. RIR101044 (copy enclosed).

This revised permit is valid for the original applicant only unless transferred pursuant to Rule 7.09 of the Rules.

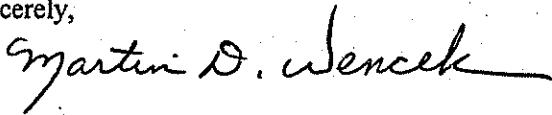

You are required to comply with the terms and conditions of this revised permit and to carry out this project in compliance with the Rules at all times. Failure to do so may result in an enforcement action by the Program.

In permitting the proposed alterations, the DEM assumes no responsibility for damages resulting from faulty design or construction.

This revised permit does not remove your obligation to obtain any local, state, or federal approvals or permits required by ordinance or law and does not relieve you from any duties owed to adjacent landowners with specific reference to any changes in drainage.

Please contact Claire Swift of this Program (telephone: 401-222-6820 ext. 7418) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Permitting Supervisor
Office of Water Resources
Freshwater Wetlands Program
