North Smithfield, RI 02896

Re: Application No. 18-0237 in reference to the location below:

Approximately 2300 feet north of Iron Mine Hill, approximately 5400 feet northeast of the intersection of Greenville Road (Route 104) and Iron Mine Hill Road, Utility Pole No. 41, AP 16, Lots 6 & 97; AP 17, Lot 175; AP 13, Lot 12 & 51; AP 12, Lots 136B & 137, North Smithfield, RI.

Dear Mr. Ferra:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Request to verify the delineated edge of freshwater wetlands**. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received on November 20, 2018.

Based upon the Program's observations and review, it is our determination that freshwater wetlands are present on the subject property. These freshwater wetlands are regulated by this Program and include at least the following types:

- Swamp
- Forested Wetland
- Stream
- River (Spring Brook)
- Area Subject to Storm Flowage
- 50-foot Perimeter Wetland
- 100-foot Riverbank Wetland
- 200-foot Riverbank Wetland
- 100-year Floodplain

The DEM has completed an inspection and review of the wetland edges delineated by you on site. It is our determination that the wetland edges delineated on-site are substantially accurate. These wetland edges have been shown on the site plan submitted with your application.

Verified wetland flag numbers are listed as follows: A3 – A5; 100 – 115; 132 – 225; 314 – 319; 326 – 388; 400 – 412; 535 - 597; 629 - 647; 800 - 813; 900 - 938; 1000 - 1064; 1090 - 1119; 1156 - 1171; 1180 - 1207; 1216 - 1230; 1300 - 1311; 1400 - 1411; 1500 - 1509; 1600 - 1605; 1700 - 1709; 1800 - 1820; and 1900 – 1916. Other flags in these series were either located off site or not marked for verification on the site plan.

Flags that were shown on the site plan to be verified but are located off site are A1, A2, A6 – A8, W1 - W5, 1 – 7, 164 – 166, 300 – 313, 226 – 230, 663, 665, and 1170 – 1171. These flags are not considered verified since they are not situated on the subject property.

Please note that you should not infer that any verification of wetland edges carried out by this Department to date represents a determination that this is the extent of all wetlands on your property. **The Department has verified only those edges delineated and shown by you on the subject property and on site plans submitted with your application and as qualified in this letter.** Should you wish to verify the edge of any additional wetlands, an additional application will be required.

This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to R.I. Gen. Laws § 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR150-15-1, a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands.

This Program assumes that the edges of freshwater wetlands, as flagged or marked on site, have been accurately surveyed and portrayed on site plans submitted in support of your application. This Program makes no guarantee or representation that such survey is accurate.

In addition, you should note that freshwater wetlands are present on this property that may be regulated under Section 404 of the Clean Water Act (Federal Water Pollution Control Act, as amended 33 U.S.C. 1344). Accordingly, a permit may be required from the U.S. Army Corps of Engineers for any proposed alteration within these wetland areas.

In accordance with 250-RICR-150-15-1.8(C)(8), this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

You are hereby advised that on July 10, 2015, significant revisions to the RI Freshwater Wetlands Act (R.I. Gen. Laws § 2-1-18 et. seq.) were signed into law. These revisions modify, among other things, the "jurisdictional areas" recognized by the State of Rhode Island. The Department is currently in the process of amending the Rules. If you are contemplating a project on your property, and submit the application prior to the promulgation of the revised Rules, you can expect the wetlands jurisdictional areas to correspond as described in this verification letter.

Any application submitted after promulgation of the Rules will be expected to conform to the then existing and duly promulgated Rules. While these changes will not affect the location of flagged wetland edges as verified in this letter, they may affect how activities located in adjacent jurisdictional upland areas will be regulated. You are advised, in the meantime, to monitor the rulemaking process, which will include opportunities for public input and comment.

Please contact Claire Swift of this Office telephone: (401-222-6820, ext. 7418) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Permitting Supervisor
