**REVISED PERMIT**

**Re:** Application No. 19-0016 in reference to the location below:

Approximately 700 feet east of South County Trail (Route 2), at Utility Pole No. 18, and approximately 2,000 feet south of its intersection with Division Street, Assessor's Plat 10, Lot 378, East Greenwich, RI.

Dear Mr. Ross:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your Application for Permit Modification and has evaluated your proposal to replace the Storm Trap system with ADS Stormtech MC4500 chambers for the two underground detention/infiltration systems as illustrated and detailed on revised site plans submitted with your application. The revised site plans were received by the DEM on February 7, 2020.

Based upon the Program's evaluation of the revised project and pursuant to 250-RICR-150-15-1.11(C) of the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR-150-15-1, it is the Program's determination that a revised permit for the modified project may be issued under the following terms and conditions:

1. This letter is the DEM's revised permit for this project under the R.I. Fresh Water Wetlands Act, R.I. Gen Laws. § 2-1-18 et seq.
2. This revised permit is specifically limited to the project, site alterations and limits of disturbance as detailed on the site plans submitted with your application and received by the DEM on February 7, 2020. A copy of the site plans stamped approved by the DEM is enclosed. Changes or revisions to the project that would alter freshwater wetlands are not authorized without a permit from the DEM.
3. Where the terms and conditions of the revised permit conflict with the approved site plans, these terms and conditions shall be deemed to supersede the site plans.
4. A copy of the stamped approved site plans and a copy of this revised permit must be kept at the site at all times during site preparation, construction, and final stabilization. Copies of this revised permit and the stamped approved plans must be made available for review by any DEM or town representative upon request.
5. Within ten (10) days of the receipt of this revised permit, you must record this permit in the land evidence records of the Town of East Greenwich and supply this Program with written documentation obtained from the Town showing this revised permit was recorded.

6. This revised permit expires four (4) years from the date of issue of the original letter of unless renewed pursuant to 250-RICR-150-15-1.9(D)(5).

Except as authorized in this revised permit pursuant to revised and approved site plans (enclosed), all terms and conditions previously specified in the Program's permit dated April 18, 2019 (copy enclosed) remain in effect.

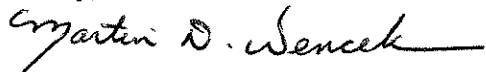

You are required to comply with the terms and conditions of this revised permit and to carry out this project in compliance with 250-RICR-150-15-1 at all times. Failure to do so may result in an enforcement action by the Program.

In permitting the proposed alterations, the DEM assumes no responsibility for damages resulting from faulty design or construction.

This revised permit does not remove your obligation to obtain any local, state, or federal approvals or permits required by ordinance or law and does not relieve you from any duties owed to adjacent landowners with specific reference to any changes in drainage.

Please contact Andy Charpentier of this office at (telephone: 401-222-4700 ext.7414) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Program Supervisor  
Freshwater Wetlands Program  
Office of Water Resources
