REVISED PERMIT

Re: Application No. 19-0216 in reference to the location below:

Approximately 350 feet east of Woonsocket Hill Road, Utility Poles 70 & 71, approximately 900 feet south of its intersection with Brentwood Drive, Assessor's Plat 8, Lot 42, North Smithfield, RI.

Dear Mr. Somyk:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your Application for Permit Modification and has evaluated your proposed modifications to the location of the approved 4-bedroom single-family residence and associated Onsite Wastewater Treatment System (OWTS), which involves lengthening of the pervious crushed stone driveway and additional grading as illustrated and detailed on revised site plans submitted with your application. The revised site plans were received by the DEM on June 30, 2021.

Based upon the Program's evaluation of the revised project and pursuant to 250-RICR-150-15-1.11(C) of the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, (Rules), it is the Program's determination that a revised permit for the modified project may be issued under the following terms and conditions:

1. This letter is the DEM's revised permit for this project under the R.I. Fresh Water Wetlands Act, R.I. Gen. Laws § 2-1-18 et seq.
2. This revised permit is specifically limited to the project, site alterations and limits of disturbance as detailed on the site plans submitted with your application and received by the DEM on June 30, 2021. A copy of the site plans stamped approved by the DEM is enclosed. Changes or revisions to the project, which would alter freshwater wetlands are not authorized without a permit from the DEM.
3. Where the terms and conditions of the revised permit conflict with the approved site plans, these terms and conditions shall be deemed to supersede the site plans.
4. A copy of the stamped approved site plans and a copy of this revised permit must be kept at the site at all times during site preparation, construction, and final stabilization. Copies of this revised permit and the stamped approved plans must be made available for review by any DEM representative upon request.
5. Within ten (10) days of the receipt of this revised permit, you must record this permit in the land evidence records of the Town of North Smithfield and supply this Program with written documentation obtained from the Town showing this revised permit was recorded.

6. This revised permit expires on October 6, 2021 unless renewed pursuant to the Rules 250-RIRC-150-15-1.10(G)(6).

Except as authorized in this revised permit pursuant to revised and approved site plans (enclosed), all terms and conditions previously specified in the Program's permit dated October 6, 2020 (copy enclosed) remain in effect.

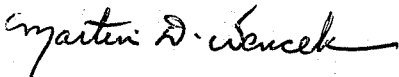

You are required to comply with the terms and conditions of this revised permit and to carry out this project in compliance with 250-RICR-150-15-1 at all times. Failure to do so may result in an enforcement action by the Program.

In permitting the proposed alterations, the DEM assumes no responsibility for damages resulting from faulty design or construction.

This revised permit does not remove your obligation to obtain any local, state, or federal approvals or permits required by ordinance or law and does not relieve you from any duties owed to adjacent landowners with specific reference to any changes in drainage.

Please contact Rene Legault of this Program (telephone: 401-222-4700 ext. 77732) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Program Supervisor

PERMIT TO ALTER FRESHWATER WETLANDS

Re: Application No. 19-0216 in reference to the location below:

Approximately 350 feet east of Woonsocket Hill Road, Utility Poles 70 & 71, approximately 900 feet south of its intersection with Brentwood Drive, Assessor's Plat 8, Lot 42, North Smithfield, RI.

Dear Mr. Somyk:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Application to Alter a Freshwater Wetland** regarding the proposed four (4) bedroom single-family residence with associated Onsite Wastewater Treatment System (OWTS), private well, and crushed stone driveway, a rain garden for stormwater treatment, and proposed plantings as described and detailed in the material and information submitted in support of your application and on site plans received by the DEM on April 20, 2020. These site plans describing the project were made available for public comment as part of the forty-five (45) day public notice period required in accordance with the Freshwater Wetlands Act (R.I. Gen. Laws § 2-1-18 et seq.) and the procedures set forth in the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR-150-15-1, specifically in 250-RICR-150-15-1.10.

This Program received one (1) letter relating to your application which was submitted during the public notice period. The letter did not express any concern regarding your project's impacts to freshwater wetland values. Therefore, a public hearing pursuant to R.I. Gen. Laws § 2-1-22 is not required.

Pursuant to the Program's review and evaluation of your application including all supporting information and material, as well as the record to date, the Program has determined that this project does not represent a random, unnecessary or undesirable alteration of freshwater wetlands. Therefore, this Program hereby issues this permit to alter freshwater wetlands **subject to all controlling Rules and the Terms and Conditions set forth herein.**

Permit Terms and Conditions for Wetlands Application No. 19-0216:

1. This letter is the DEM's permit for this project under the R.I. Fresh Water Wetlands Act, R.I. Gen. Laws § 2-1-18 et seq.

2. This permit is specifically limited to the project, site alterations and limits of disturbance as detailed on the site plans submitted with your application and received by the DEM on April 20, 2020. A copy of the site plans stamped approved by the DEM is enclosed. Changes or revisions to the project which would alter freshwater wetlands are not authorized without a permit from the DEM.
3. Where the terms and conditions of the permit conflict with the approved site plans, these terms and conditions shall be deemed to supersede the site plans.
4. You must notify this Program in writing immediately prior to the commencement of site alterations and again upon completion of the project.
5. A copy of the stamped approved site plans and a copy of this permit must be kept at the site at all times during site preparation, construction, and final stabilization. Copies of this permit and the stamped approved plans must be made available for review by any DEM or town representative upon request.
6. Within ten (10) days of the receipt of this permit, you must record this permit in the land evidence records of the Town of North Smithfield and supply this Program with written documentation obtained from the Town showing this permit was recorded.
7. The effective date of this permit is the date this letter was issued. This permit expires one (1) year from the date of this letter unless renewed pursuant to 250-RICR-150-15-1.10(G)(6).
8. Any material utilized in this project must be clean and free of matter that could pollute any freshwater wetland.
9. Prior to commencement of site alterations, you shall erect or post a sign resistant to the weather and at least twelve (12) inches wide and eighteen (18) inches long, which boldly identifies the initials "DEM" and the application number of this permit. This sign must be maintained at the site in a conspicuous location until such time that the project is complete or the DEM issues a Notice of Completion of Work for the project.
10. Temporary erosion and sediment controls detailed or described on the approved site plans shall be properly installed at the site prior to or commensurate with site alterations. Such controls shall be properly maintained, replaced, supplemented, or modified as necessary throughout the life of this project to minimize soil erosion and to prevent sediment from being deposited in any wetlands not subject to disturbance under this permit.
11. Upon permanent stabilization of all disturbed soils, all temporary erosion and/or sediment controls must be removed.
12. You are responsible for the proper installation, operation, maintenance and stability of any mitigative features, stormwater treatment facilities, and systems of treatment and control that are installed or used in compliance with this permit to prevent harm to adjacent wetlands until such time that documentation is provided that this responsibility has been assigned to another entity.
13. You are obligated to install, utilize and follow all best management practices detailed or described on the approved site plans in the construction of the project to minimize or prevent adverse impacts to any adjacent freshwater wetlands and the functions and values provided by such wetlands.

14. All plantings of shrubs, trees or other forms of vegetation as shown or detailed on the approved plans, or detailed in this permit, must be installed as soon as possible after completion of final grading; weather and season permitting. You must notify this Program in writing upon completion of the required plantings for a compliance inspection by a Program representative.
 15. Buffer zone plantings of trees and/or shrubs proposed between the project and any adjacent freshwater wetland areas, except for necessary replacement, must be allowed to develop naturally without being subjected to mowing or manicuring.
 16. Any plantings which fail to survive one full growing season shall be replaced in-kind. Replacement plantings shall be similarly guaranteed for one full growing season.
 17. Artificial lighting is not authorized along the driveway/roadway where it crosses freshwater wetlands.
-

Pursuant to the provisions in 250-RICR-150-15-1.7(A)(9) and 250-RICR-150-15-1.11(D) of the Rules, as applicable, any properly recorded and valid permit is automatically transferred to the new owner upon sale of the property. Pursuant to the provisions in 250-RICR-150-15-1.7(A)(9)(c), within ten (10) days of any property transfer, the subsequent transferee must notify the Department by forwarding a certified copy of the deed of transfer.

You are required to comply with the terms and conditions of this permit and to carry out this project in compliance with the Rules at all times. Failure to do so may result in an enforcement action against you by the DEM.

If you have not already done so, or in order to check on the status of their review, please contact the U.S. Army Corps of Engineers to determine federal permit requirements on your project. Write the Corps' New England District, Regulatory Branch, 696 Virginia Road, Concord, MA 01742-2751; website: <https://www.nae.usace.army.mil/Missions/Regulatory/or> email at cenaer@usace.army.mil. Please note that the Department of the Army authorization must be obtained before any work is initiated in areas subject to Corps jurisdiction.

In permitting the proposed alterations, the Department assumes no responsibility for damages resulting from faulty design or construction. This permit does not remove your obligation to obtain any local, state, or federal approvals or permits required by ordinance or law and does not relieve you from any duties owed to adjacent landowners with specific reference to any changes in drainage.

If you are aggrieved by this decision, you may, within thirty (30) days of the receipt of this letter, request an adjudicatory hearing in writing. This request must be sent directly to the DEM Administrative Adjudication Division ("AAD"), One Capitol Hill, Second Floor, Providence, RI 02903. A copy of the request should also be forwarded to this Program and to the Office of Legal Services, at the same address. Your written request for an adjudicatory hearing must be timely filed and should conform to the requirements of 250-RICR-10-00-1.7(B) of the DEM Rules and Regulations for the Administrative Adjudication Division, 250-RICR-10-00-1. Section 250-RICR-10-00-1.7(B) provides:

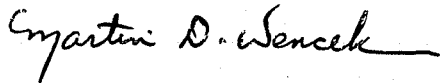

"The request for a hearing shall state clearly and concisely the specific issues which are in dispute, and the facts in support thereof, the relief sought, if any, the license or permit sought or involved, and any additional information required by applicable statutes and regulations."

The written request must be accompanied by an adjudicatory hearing fee of two thousand dollars (\$2,000.00); in the form of a certified bank check or money order made payable to the Rhode Island General Treasurer; however, in the event that the cost of the hearing exceeds the fee paid, the Program through the AAD will require an additional fee which the applicant must submit prior to the DEM's issuance of any final decision regarding this application. The adjudicatory hearing will be held before a Hearing Officer from the AAD. Such hearing will be held in compliance with 250-RICR-10-00-1, R.I. Gen. Laws Chapter

42-35-1 et seq., and other governing laws, rules, and regulations adopted by the DEM. Please note that you have the right to be represented by legal counsel in any proceeding which may be held in this matter.

If you have any questions regarding this matter, you may contact me or Rene Legault of my staff at this office (telephone: 401-222-4700, ext. 7732).

Sincerely,

Martin D. Wencek, Program Supervisor

Re: Application No. 19-0216 in reference to the location below:

Approximately 350 feet east of Woonsocket Hill Road, Utility Poles 70 & 71, approximately 900 feet south of its intersection with Brentwood Drive, Assessor's Plat 8, Lot 42, North Smithfield, RI.

Dear Mr. Somyk:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its initial review of your Application to Alter a Freshwater Wetland. This initial review has determined that your application is complete and adequate for Notice for public comment in accordance with the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR-150-15-1. In order to carry out the Notice pursuant to the Rules, you are required to submit 7 full size copies of your site plan(s) and 17 reduced-size (8½" x 11") copies of your site plan(s). These (This) site plan(s) must be identical to the site plan(s) recently reviewed by the Program and entitled:

“Wetlands Plan for Andromeda Real Estate Partners LLC, Plat 8, Lot 42, Woonsocket Hill Road, North Smithfield, Rhode Island; dated June, 2019 and most recently revised on December 19, 2019”

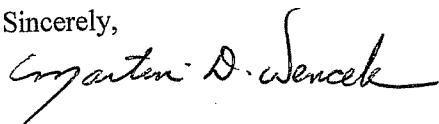

In addition to the site plans required, please provide 2 copies of the written material or documents submitted in support of your application.

You are responsible for reviewing the list of abutters provided to this Program for purposes of the public Notice and ensuring that it is accurate and up to date. If necessary, please provide an updated list to reflect any recent land transactions or changes in ownership.

Please provide this information as soon as possible so that we may continue to process your application. Upon receipt, this Program will review this material for completeness in accordance with this letter and promptly Notice your application in accordance with the Rules. Please ensure that your site plans, both full and reduced, are legible and bear the stamp, signature and date of signing of all licensed professionals that are responsible for plan preparation pursuant to state law (see 250-RICR-150-15-1.7(A)(3)(m)).

Please reference the Application Number above in all communications regarding your application. If you have any questions, please contact Rene Legault of this Office at (401) 222-4700 ext. 7732.

Sincerely,

Martin D. Wencek, Program Supervisor
