Little Compton, RI 02837

Re: Application No. 19-0326 in reference to the location below:

Approximately 1700 feet northeast of the intersection of Highland Road and Old Main Road,  
Assessors Plat 310, Lot 112, Tiverton, RI.

Dear Mr. Chace:

The Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Request to verify the delineated edge of freshwater wetlands**. This review included an inspection of the above referenced property ("subject property") as described by the site plans submitted with your application and received on July 1, 2020.

Based upon the Program's observations and review, it is our determination that freshwater wetlands are present on or are in close proximity to the subject property. These freshwater wetlands are regulated by this Program and include at least the following types:

- (2) Swamps (A & E series)
- 50-foot Perimeter Wetland
- (2) Forested Wetlands (H, I series)
- Special Aquatic Site (within the I series)
- Area Subject to Storm Flowage (ASSF) (flowing from the H series, not shown on site plan)
- Stream (within E series)
- 100-foot Riverbank Wetland
- River (Sin and Flesh Brook)
- 200-foot Riverbank Wetland
- 100-year Floodplain

The DEM has completed an inspection and review of the wetland edges delineated by you on site. It is our determination that the wetland edges delineated on site are substantially accurate. These wetland edges have been shown on the site plan submitted with your application and are referenced as:

- Wetland flags A10 through A18 and A30 through A60 delineating the edge of a swamp,
- Wetland flags E23 through E92 delineating the edge of a second swamp,
- Wetland flags H1 through H 21 delineating the edge of a forested wetland, and
- Wetland flags I1 through I13 delineating the edge of a forested wetland and special aquatic site.

Please note that flags A1 through A9 are off site and are not verified. In addition, flags A110, A120, A130, and A140 are not verified under this application.

Please be advised, you should not infer that any verification of wetland edges carried out by this Department to date represents a determination that this is the extent of all wetlands on your property. **The Department has verified only those edges delineated by you on site and shown on site plans submitted with your**

**submitted with your application and as qualified in this letter.** Should you wish to verify the edge of any additional wetlands, an additional application will be required.

**This letter does not constitute an approval or permit for any proposed project on the subject property. Pursuant to R.I. Gen. Laws § 2-1-21(a) of the Freshwater Wetlands Act and the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR150-15-1, a permit is required from this Program prior to the commencement of any activity which impacts or alters freshwater wetlands.**

This Program assumes that the edges of freshwater wetlands, as flagged or marked on site, have been accurately surveyed and portrayed on site plans submitted in support of your application. This Program makes no guarantee or representation that such survey is accurate.

In addition, you should note that freshwater wetlands are present on this property that may be regulated under Section 404 of the Clean Water Act (Federal Water Pollution Control Act, as amended 33 U.S.C. 1344). Accordingly, a permit may be required from the U.S. Army Corps of Engineers for alteration of these wetland areas.

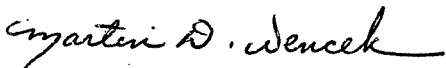

In accordance with 250-RICR-150-15-1.8(C)(8), this verification of the delineated edge of freshwater wetlands is valid for a limited period of four (4) years from the date of issue.

**You are hereby advised that on July 10, 2015, significant revisions to the RI Freshwater Wetlands Act (R.I. Gen. Laws § 2-1-18 et. seq.) were signed into law. These revisions modify, among other things, the "jurisdictional areas" recognized by the State of Rhode Island. The Department is currently in the process of amending the Rules. If you are contemplating a project on your property, and submit the application prior to the promulgation of the revised Rules, you can expect the wetlands jurisdictional areas to correspond as described in this verification letter.**

**Any application submitted after promulgation of the Rules will be expected to conform to the then existing and duly promulgated Rules. While these changes will not affect the location of flagged wetland edges as verified in this letter, they may affect how activities located in adjacent jurisdictional upland areas will be regulated. You are advised, in the meantime, to monitor the rulemaking process, which will include opportunities for public input and comment.**

Please contact Claire Swift of this Office telephone: (401-222-6820, ext. 7418) should you have any questions regarding this letter.

Sincerely,

Martin D. Wencek, Permitting Supervisor  
Office of Water Resources  
Freshwater Wetland Program
